MY SCHOOL ENTERPRISE

social entrepreneurship projects – competition organised by Liceul Teoretic "Ovidius"

MOTIVATION

We started the project with the idea of bringing the high school into the tone of the present times and create a place that would encourage students to be creative, but also create a relaxing atmosphere during classes for them and teachers as well.

With a beautiful image attributed to a prestigious high school, children will be eager to learn and spend time at the “Ovidius” high school.

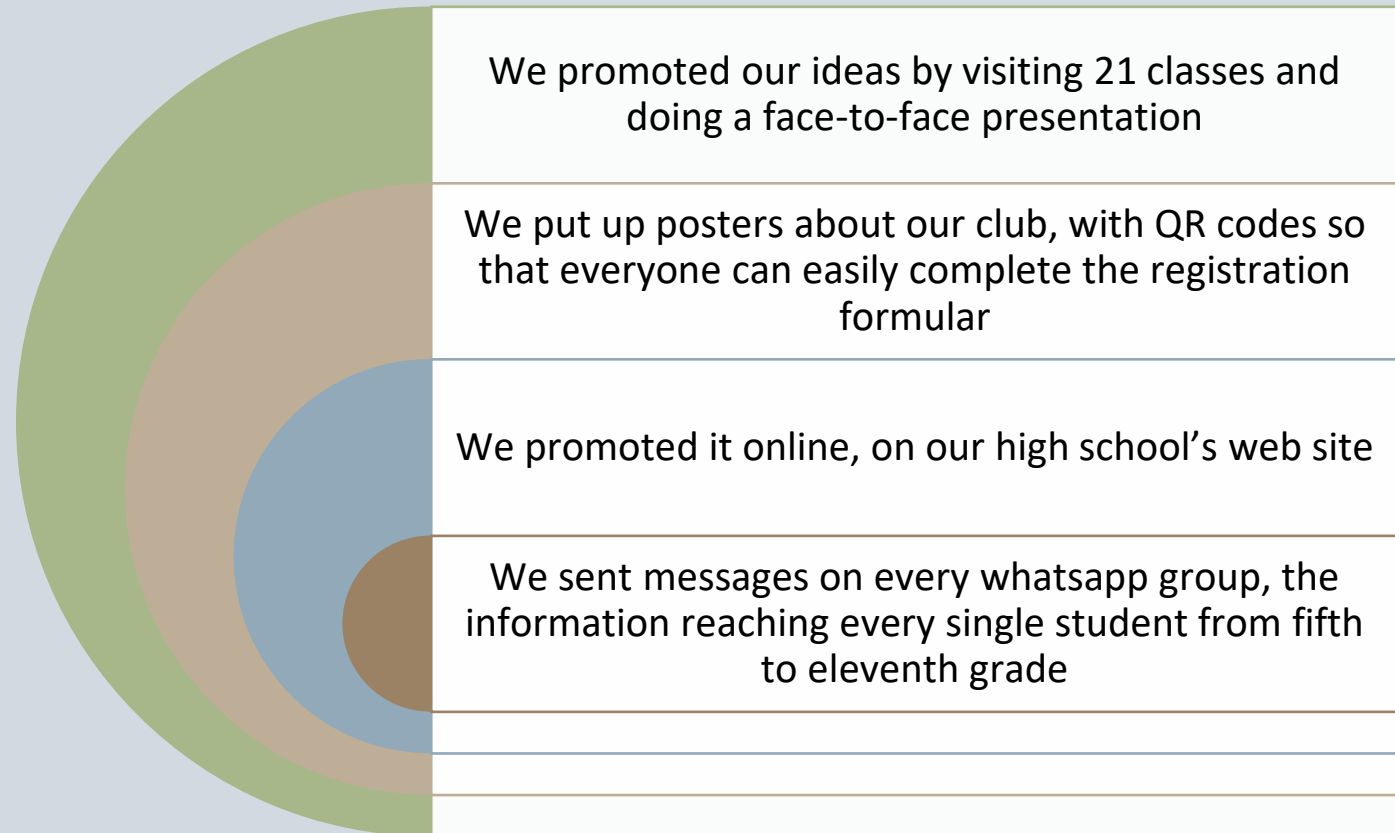

CONCEPT PRESENTATION

We had a passion for arts and we wanted to share it with the world. We saw the opportunity through this project but it all came to life the moment we noticed the desire that other students had for a creative, colorful and engaging atmosphere during the school classes.

Considering that, we decided, with the help of some very talented students, to do paintings directly on the walls of our high school's labs contributing to their redecoration.

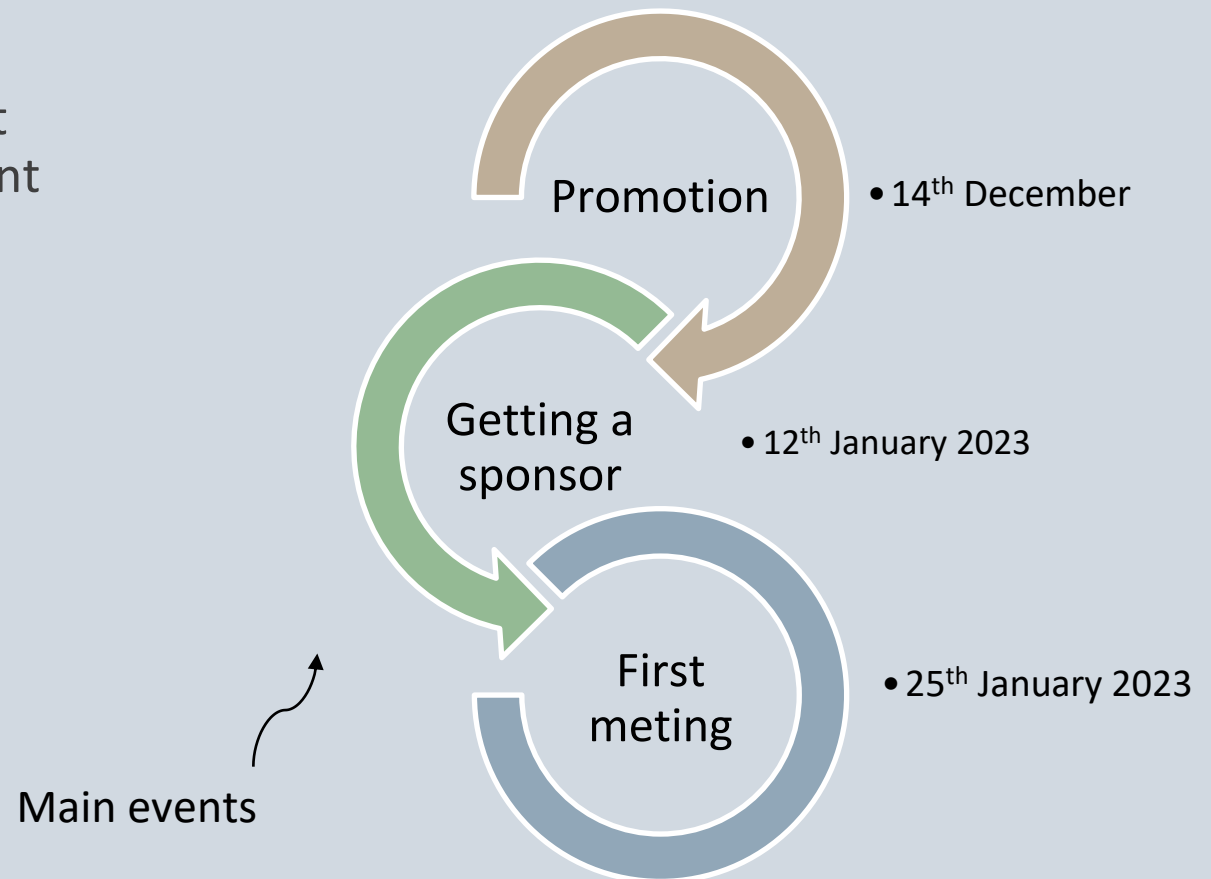

ACTIVITIES – promotion

In order to promote our ideas we decided to try multiple ways to connect with the people that want to take part in our activities in order to make our vision come to life, and create a more engaging and relaxing space in our high school.

CALENDAR OF EVENTS / ACTIVITIES

Giving the complexity of our project, we haven't manage to complete the renovation of a lab for the moment, but we are making more and more important steps in order to make our ambitions come to realization.

ACTIVITIES – beneficiaries

- We had four meetings to were we had at first seven people, but others joined along the way now having a team with 13 people. We eventually limited the number of participants because we wanted to give everyone a role and make sure that we would listen to everyone's opinion and ideas.
- We gathered with the participants every week, offline, at school. For an hour we were usually brainstorming ideas for designing a class, but most of the time we were doing together different sketches, for the classes wanted to redecorate. At first we discuss about multiple other rooms but we eventually settled on working in the French class P27.

The poster used for promoting the project

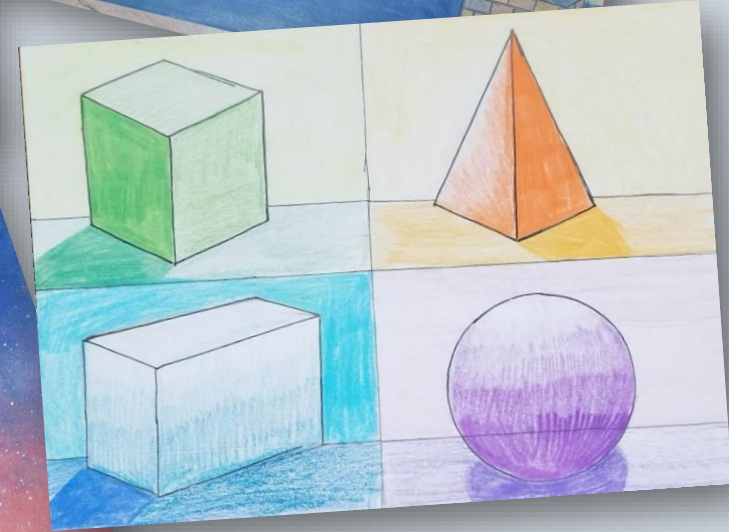

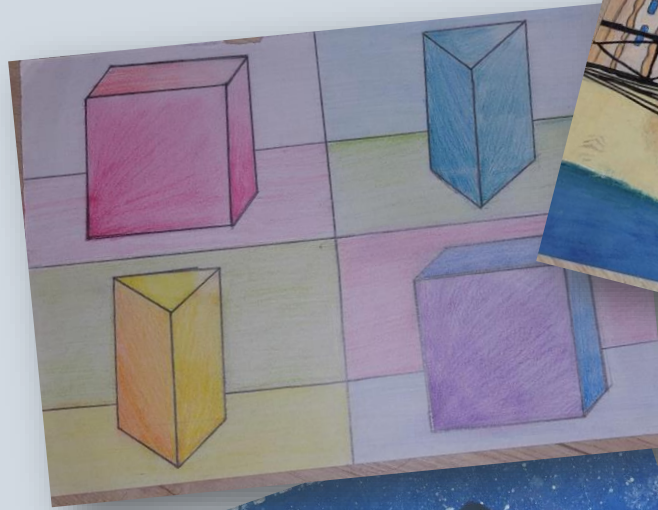

Different sketches that we did for the biology lab

*Pictures that we did
during our gatherings*

*Other sketches that we did for
the club*

*Some of the drawings that we are going to
use in order to redecorate the French lab*
