

THE WORLD OF IMAGINATION

proiect derulat de: (Huluba Camelia Irina, Iordan Daniela-Bianca, Tode Malvina -Alexia)

MY SCHOOL ENTERPRISE

social entrepreneurship projects – competition organised by Liceul Teoretic "Ovidius"

MOTIVATION

Book clubs are a great way to **establish a sense of community with other readers**. You can spend hours chatting with people who love the same authors as you, or debating about the merits of a particular character. Either way it's a more affordable way to have an active social life.

We noticed that children, nowadays, don't read as much as they should and they only use their phones\laptops\etc. We have combined our passion with this project, spreading new ideas to attract middle schoolers into the magical world of books. Books are magical because they change people's lives, inspire, motivate and encourage us to see the right path. We want to make a safe place where they can improve their public speaking skills.

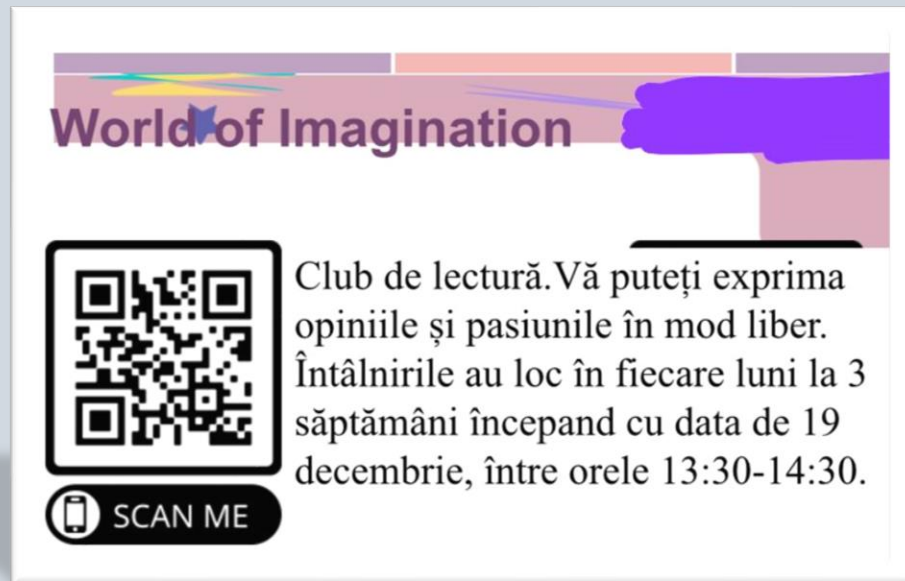

CONCEPT PRESENTATION

We have one passion in common: reading. The three of us have loved books since we were little, but we didn't have the chance to have a reading club. We considered it would be a wonderful experience to work with children and help them discover their talents and improve them. We wanted to do as many activities as possible. Our intention was not to focus just on reading, but to use books as a base for presentation that involve their talents for example: drawing, dancing, painting, even theatre. This is also our passion, we discovered that we love and appreciate children. Also any children's opinion are welcome and acknowledge.

We promote a love of literature in a positive, nurturing environment. The purpose of this club is **to bring a community together to learn about and discuss something that matters to them.**

ACTIVITIES – promotion

After talking with the teachers, asking for their permissions to present our idea to their classes, we went, talked with the kids and handed them flyers which guided them to the registration form. They were so excited about this project!

CALENDAR OF EVENTS / ACTIVITIES

The project started on 11.01.2023- we presented our ideas to the target classes. The activities took place in room I20, in the "Ovidius" Theoretical High School, once every 2 weeks, on Wednesdays, from 12:30-1:20. Until now, 3 meetings have taken place (11.01.2023, 25.01.2023 and 08.02.2023).

In the end

While reading is sometimes its own reward, joining a community of literature lovers can help foster a continuing love of literature in yourself and in your community. By meeting with others and sharing the love of literature, you'll help keep your own love of reading strong and encourage each other to continue reading and loving literature!

For us, it was a great experience meeting and working with this childrens. Actually, we decided to continue our project and making this steps for creating an extraordinary and magically book club in our highschool.

Thank you for giving this amazing idea! Thank you for attention and we hope that we will be able to travel with Erasmus in Italy.
