## MY SCHOOL ENTERPRISE

*social entrepreneurship projects – competition organised by Liceul Teoretic "Ovidius"*

# Motivation

Our team was inspired by the concept of social entrepreneurship, which we learned is a business approach that creatively addresses social issues with both social and economic objectives. In light of this, we started with one question:

*“What is missing in our high school and how can we help with this problem?”*

- A diversified program
- Better development
- A better perception of the future

# Concept presentation

Because of social media the attention span of younger people has gotten worse so we thought that we can organize an activity that does not focus only on one theme, in order to keep the diversity at a higher level. We asked ourselves two questions: *"What would be helpful to us in high school?"* and *"What would we enjoy participating in?"* thus reaching two themes for January and February:

**The first topic: First Aid**

**The second topic: Theatre**
